NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 – Nature of Business and Basis of Presentation

Nature of Business – Circletronics Inc., now ColorStars Group (“the Company”), was incorporated in Canada on January 21, 2005. Circletronics Inc., was redomiciled to Nevada and its name changed to ColorStars Group on November 3, 2005. ColorStars Group owns 100% of the shares of ColorStars Inc.

Color Stars Inc. (Color Stars TW) was incorporated as a limited liability company in Taiwan, Republic of China in April 2003 and commenced its operations in May 2003. The Subsidiary is mainly engaged in manufacturing, designing and selling light-emitting diode and lighting equipment.

Basis of Presentation – The accompanying unaudited consolidated condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to the Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for a complete presentation of the financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair presentation have been included in the accompanying financial statements. For further information, refer to the consolidated financial statements and footnotes included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2011.

Note 2 - Recently Issued Accounting Pronouncements

Balance Sheet – the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2011-11 in December 2011, Balance sheet – Disclosures about Offsetting Assets and Liabilities. The new requirements state that entities must disclose both gross information and net information about both instruments and transactions eligible for offset in the balance sheet, and instruments and transactions subject to an agreement similar to a master netting arrangement. The scope of the requirements includes derivatives, sales and repurchases agreements, reverse sale and repurchase agreements, and securities borrowing and securities lending arrangements. The requirements are effective for annual periods beginning on or after January 1, 2013, and interim periods within those annual periods. The Company does not expect that the adoption will have a material effect on the consolidated financial statements.

Note 3 – Concentration of Credit Risk

Financial instruments that potentially subject the Company to significant concentration of credit risk consist principally of accounts receivable, cash and cash equivalents. The Company’s cash and cash equivalents are maintained with high quality institutions, the compositions and maturities of which are regularly monitored by management. Through March 31, 2012, the Company had not experienced any losses on such deposits.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 3 – Concentration of Credit Risk

Accounts receivable include amounts due from customers primarily in the manufactory industry. The Company performs ongoing credit evaluations of its customers' financial condition and limits the amount of credit extended when deemed necessary, but generally requires no collateral. The Company also maintains allowances for potential credit losses. In estimating the required allowances, the Company takes into consideration the overall quality and aging of the receivable portfolio, the existence of a limited amount of credit insurance and specifically identified customer risks. Through March 31, 2012, such losses have been within management's expectations.

For the three months ended March 31, 2012, products sold to the Company's largest customer, accounted for approximately 6.76%. Products purchased from the Company's first two largest suppliers were accounted for approximately 46.42% of the total purchases.

As of March 31, 2012, the largest three customers exceeded 37% of the total consolidated accounts receivable balance.

Note 4 – Earnings per share

Basic net loss per share is computed by dividing net loss for the period by the weighted average number of shares of common stock outstanding during the period.

The following table sets forth the computation of basic and diluted net loss per share for the periods indicated:
