Note 3 - Recently Issued Accounting Pronouncements

Foreign Currency Matters – Effective December 15, 2014, the Financial Accounting Standards Board ("FASB") issued ASU No. 2013-05, *Foreign Currency Matters*. The parent entity is required to release any related cumulative translation adjustment into net income when the entity ceases to have a controlling financial interest in a subsidiary or group of assets. A pro rata portion of the cumulative translation adjustment should be released into net income upon a partial sale of such an equity method investment.

Note 4 - Concentration of Risk

Financial instruments that potentially subject the Company to significant concentration of credit risk consist principally of accounts receivable, cash and cash equivalents. The Company's cash and cash equivalents are maintained with high quality institutions, the compositions and maturities of which are regularly monitored by management. Through March 31, 2014, the Company had not experienced any losses on such deposits.

Accounts receivable include amounts due from customers primarily in the manufactory industry. The Company performs ongoing credit evaluations of its customers' financial condition and limits the amount of credit extended when deemed necessary, but generally requires no collateral. The Company also maintains allowances for potential credit losses. In estimating the required allowances, the Company takes into consideration the overall quality and aging of the receivable portfolio, the existence of a limited amount of credit insurance and specifically identified customer risks. Through March 31, 2014, such losses have been within management's expectations.

For the three months ended March 31, 2014, products sold to the Company's largest customer, accounted for approximately 19.93%. Products purchased from the Company's first two largest suppliers were accounted for approximately 79.81% of the total purchases.
