NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Note 1 – Nature of Business and Basis of Presentation

Nature of Business – Circletronics Inc., now ColorStars Group (“the Company”), was incorporated in Canada on January 21, 2005. Circletronics Inc.- was redomiciled to Nevada and its name changed to ColorStars Group on November 3, 2005. ColorStars Group owns 100% of the shares of ColorStars Inc. Color Stars Inc. (“Color Stars TW”, “the Subsidiary”) was incorporated as a limited liability company in Taiwan, Republic of China in April 2003 and commenced its operations in May 2003. The Company through its wholly owned Subsidiary was primarily engaged in manufacturing, designing and selling light-emitting diode and lighting equipment until 2018. The Company intends to change its business model into a holding company due to environmental changes at 2018 adversely affecting the LED lighting market. The Company’s business model commencing in 2018 is to acquire various operating companies. There is no assurance that the Company will be able to acquire any operating companies.

Basis of Presentation - The accompanying unaudited consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States for interim financial information and with the instructions to the Quarterly Report on Form 10-Q and Rule 10-01 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by accounting principles generally accepted in the United States for a complete presentation of the financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for fair statement of the financial position, results of operations and cash flows for the three and nine months ended September 30, 2016 and 2015 have been included. Operating results for the three and nine months ended September 30, 2016 are not necessarily indicative of the results to be expected for any subsequent interim period or for the year ending December 31, 2016. The balance sheet at December 31, 2015 included herein was derived from the consolidated financial statements included in the Company’s Annual Report on Form 10-K as of that date. Accordingly, the consolidated financial statements included herein should be reviewed in conjunction with the consolidated financial statements and notes thereto included in the Company’s Annual Report on Form 10-K for the fiscal year ended December 31, 2015, as filed with the Securities and Exchange Commission (“SEC”) on April 14, 2016. Some reported amounts have been reclassified to conform to current-period presentation, although no net effect on the previously-reported financial information

Basis of Consolidation - The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries. All intercompany accounts and transactions have been eliminated.

The Company has negative working capital of \$634,232 and an accumulated deficit of \$4,043,554 as of September 30, 2016, and it reported net losses for past two years. These factors, among others, raise substantial doubt about the Company’s ability to continue as a going concern. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

The Company need to raise additional capital from external sources or from shareholder loans to support its operation. There is no assurance that the Company will be able to obtain funding with acceptable terms.

The Company adopted the provisions of ASC 820, which require us to determine the fair value of financial assets and liabilities using a specified fair-value hierarchy. The objective of the fair-value measurement of our financial instruments is to reflect the hypothetical amounts at which we could sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date (exit price). ASC 820 describes three levels of inputs that may be used to measure fair value, as follows:

Level 1 value is based on observable inputs that reflect quoted prices (unadjusted) for identical assets or liabilities in active markets.

Level 2 value is based on inputs other than quoted market prices included in Level 1 that are observable for the asset or liability either directly or indirectly.

Level 3 values are driven by models with one or more significant inputs or significant value drivers that are unobservable.

Overview

(a) Business Overview.

ColorStars Group (“we”, “us”, “our”, the “Company”) was initially incorporated in the Province of Ontario, Canada on January 21, 2005. On November 3, 2005, we converted to a Nevada corporation. We are a vertically integrated lighting company that develops light emitting diodes (“LED”) based lighting products for general consumer applications as well as LED lighting products for professional lighting installations. Our LED lighting application development activity ranges from LED packaging to optical lens and heat management, from retrofit LED lamps and bulbs to lighting fixtures designed for general and special lighting applications. The Company intends to change its business model into a holding company due to environmental changes in 2018 adversely affecting the LED lighting market. The Company’s business model commencing in 2018 is to acquire various operating companies. There is no assurance that the Company will be able to acquire any operating companies.

(b) Significant Business Transactions Overview.

On July 24, 2005, we entered into an acquisition agreement with ColorStars, Inc., a Taiwanese corporation (“ColorStars Taiwan”), pursuant to which, on February 14, 2006, the shareholders of ColorStars Taiwan were issued shares of our Company in exchange for their shares of ColorStars Taiwan. This resulted in ColorStars Taiwan becoming a wholly owned subsidiary of the Company. Specifically, for each share of common stock outstanding of ColorStars Taiwan (1,500,000 shares of ColorStars Taiwan were issued and outstanding at such time), 20 shares of our common stock were issued in exchange for each such share (the aggregate of 30,000,000 shares of our common stock).

On March 20, 2009, ColorStars Taiwan acquired 50.4% of the outstanding common shares of Fin-Core Corporation, a Taiwanese corporation (“Fin-Core”) for a cash consideration of US \$468,262. This resulted in Fin-Core becoming a subsidiary of ours. The purchase price for the common shares of Fin-Core was determined through private negotiations between the parties and was not based upon any specific criteria of value. Fin-Core is principally engaged in the design and manufacturing of thermal management devices, the design and manufacturing of electrical and lighting devices and trade, and the import and export of electrical and lighting devices.

On July 7, 2010, ColorStars Taiwan sold 30.4% of its common shares of Fin-Core to Meiloon Industrial Co., Ltd., a publicly traded company on the Taiwan Stock Exchange, for a cash offering of US \$429,000. As a result of this transaction, ColorStars Taiwan owned only 20% of the outstanding common shares of Fin-Core.

On August 5, 2009, ColorStars Taiwan acquired a 51% equity interest in Jun Yee Industrial Co., Ltd., a Taiwanese corporation (“Jun Yee”) for a cash consideration of US \$536,000. The purchase price for the equity interest in Jun Yee was determined through private negotiations between the parties and was not based upon any specific criteria of value. Upon acquiring the equity interest, Jun Yee became a subsidiary of ours. The principal activity of Jun Yee is the manufacturing of LED light.

On November 26, 2010, ColorStars Taiwan entered into two related stock purchase agreements whereby ColorStars Taiwan sold all of its shares of Jun Yee common stock to Mr. Ming-Chun Tung and Ms. Ming-Fong Tung. Pursuant to the stock purchase agreement entered into with Mr. Ming-Chun Tung, ColorStars Taiwan sold 265,000 shares of its Jun Yee common stock to Mr. Ming-Chun Tung at a price per share of NTD \$23 (USD \$0.76) for a total purchase price of NTD \$6,095,000 (USD \$200,427). Furthermore, pursuant to the stock purchase agreement entered into with Ms. Ming-Fong Tung, ColorStars Taiwan sold 500,000 shares of its Jun Yee common stock to Ms. Ming-Fong Tung at a price per share of NTD \$23 (USD \$0.76) for a total purchase price of NTD \$11,500,000 (USD \$378,165). As a result of the transactions consummated above, Jun Yee is no longer our subsidiary.

In October 2011, Fin-Core decided to increase its capital by issuing 3,000,000 new shares at par value of NTD10 per share. The Company was entitled to subscribe for up to 600,000 shares for NTD 6,000,000. However, the Company chose not to participate in the subscription of any newly issued shares of Fin-Core. As a result, on November 4, 2011, the Company’s equity interest in Fin-Core decreased to 11.43% from 20% after issuance of 3,000,000 new shares.

On Dec. 20, 2012, Fin-Core Corporation decreased its total shares from 7,000,000 to 500,000. The Company’s invested cost and percentage of shareholding were unchanged after the share consolidation. The Company held 57,143 shares in Fin-Core after the consolidation.

On December 28, 2012, Fin-Core increased its total shares to 1,100,000 shares with a new capital injection. The Company decided to not participate in the new share subscription and kept its total shares at 57,143. As a result, on December 31, 2012, the Company’s equity interest in Fin-Core decreased to 5.19%. As a result of the consolidation and subsequent increase in outstanding shares, Fin-Core is no longer deemed our subsidiary.

In 2004, ColorStars, Inc. based in Taiwan acquired 20% of the outstanding common shares of Anteya Technology Corporation. Anteya provides the OEM service to us for the TRISTAR, EZSTAR, R4, LUXMAN, and HB series of product lines. On August 16, 2012, Anteya increased its share capital from 5,000,000 shares to 6,500,000 shares, and we subscribed for 300,000 additional shares at par value. The Company now holds a total of 1,300,000 shares in Anteya representing a total investment of NTD \$27,304,000 (USD \$910,492). The Company did not subscribe additional shares in Anteya when Anteya increased its outstanding shares from 6,500,000 shares to 9,500,000 shares. As a result, the Company’s equity position in Anteya decreased from 20% to 13.68% as of June 30, 2016.

On October 13, 2008 we acquired 2,800 shares in a German company, Phocos AG. On May 27, 2013, the Company sold its 2,800 shares of Phocos AG to MUUS Horizen Fund 1, LP for \$30 EU per share (\$84,000 EU in total). The Company has no remaining stake in Phocos AG.

Financial Condition, Liquidity and Capital Resources

Our revenues during the period ended September 30, 2016 were primarily derived from the sale of LED devices and systems. Although our financial results for the period ended September 30, 2016 were mainly dependent on sales, general and administrative, compensation and other operating expenses, our financial results as of such date were also dependent on the level of market adoption of LED technology as well as general economic conditions.

Lighting products remained relatively static for 50 years until recently, when lighting became one of the last major markets to be transformed substantially by new technology. Because LED technology remains an emerging and expensive technology that has only recently become more economically viable, market adoption has been slow. Given the recent economic downturn, liquidity has been constrained forcing institutions and individuals to substantially reduce capital spending to focus only on critical path expenditures. LED lighting products have been a discretionary rather than mandatory investment, and as a result, sales of our devices and systems have been negatively impacted. We believe that as the global economy grows and provides institutions and individuals with greater liquidity, sales of our devices and systems will increase.

Increased market awareness of the benefits of LED lighting, increasing energy prices and the social movement influencing individuals and institutions towards greater investment in energy-efficient products and services will have, we believe, an increasingly positive impact on our sales in the future. Additionally, as of September 30, 2016, we intended to utilize our strategic partnerships to help us reduce the component and production costs of our devices and systems in order to offer them at competitive prices. Further, we believed our ability to provide attractive financing options to our clients with respect to the purchase of our devices and systems will positively affect our sales.

Net cash provided by (used in) operating activities. During the nine months ended September 30, 2016, net cash used for operating activities was (\$220,219) compared with \$68,310 provided in operating activities for the nine months ended September 30, 2015. The cash flow used in operating activities in the nine months ended September 30, 2016 was primarily the result of decrease in bad debt recovery and prepaid expenses and other current asset. The cash flow provided in operating activities in the nine months ended September 30, 2015 was primarily the result of higher overall sales during that period.

Net cash provided by (used in) investing activities . During the nine months ended September 30, 2016, net cash used in investing activities was \$0 compared with (\$10,093) used in investing activities for the nine months ended September 30, 2015.

Net cash provided by (used in) financing activities. During the nine months ended September 30, 2016, net cash provided in financing activities was \$221,986 compared with \$20,000 provided in investing activities for the nine months ended September 30, 2015.

As of the quarter ending September 30, 2016, we anticipated that our available cash and cash resources from expected revenues will be sufficient to meet our anticipated working capital and capital expenditure requirements for at least the next twelve months.

As of the quarter ending September 30, 2016, we had an outstanding short-term loan with Bank SinoPac of Taiwan. We entered into one written, short-term loan agreements with this bank on February 24, 2016. The loan is secured by real property of Tsui-Ling Lee, spouse of Wei-Rur Chen, our president and CEO. The terms of the loan agreement is described in further detail in the chart below:

<u>Lender</u>	<u>Borrower</u>	<u>Loan Amount</u>	<u>Term</u>	<u>Interest Rate</u>
Bank SinoPac of Taiwan	ColorStars, Inc.	Seventeen Million New Taiwan Dollars (NTD \$17,000,000)(1)	February 24, 2016 to August 23, 2016	Fixed at 1.80% per annum

(1) NTD \$17,000,000 is approximately USD \$542,751.

Our continued existence is dependent upon several factors, including increased sales volumes, collection of existing receivables and the ability to achieve profitability from the sale of our products. In order to increase our cash flow, we are continuing our efforts to stimulate sales.
